

Initial wireframes (by page)

Main Page

The image displays two wireframe prototypes for the 'Campus Resource Hub' application, showing different design approaches for the main homepage.

Top Wireframe: This prototype includes a 'Project Overview' section with a detailed description of the application's purpose and key statistics: 7 Key Screens, 3 User Roles, 8 Core Features, and an MVC Architecture diagram. Below this is a navigation bar with links to Homepage, Resource Listing, Resource Detail, User Dashboard, Admin Dashboard, Login, and Sign Up. The main content area features a header 'Find & Book Campus Resources' with a search bar, followed by a 'QUICK FILTERS' section with four categories: Study Rooms, Lab Equipment, Event Spaces, and Tutoring. A 'Featured Resources' section shows three resource cards with placeholder images. A 'Browse by Category' section lists Academic Resources, Technology & Equipment on the left, and Event Spaces, Wellness & Recreation on the right. At the bottom, a 'Core Features Implemented' section is shown.

Bottom Wireframe: This prototype follows a similar structure but with some differences. It lacks the 'Project Overview' and 'MVC Architecture' sections. Instead, it has a more compact navigation bar and a simplified 'Find & Book Campus Resources' header. The 'QUICK FILTERS' section is identical. The 'Featured Resources' section shows three resource cards with placeholder images. The 'Browse by Category' section lists Academic Resources, Technology & Equipment on the left, and Event Spaces, Wellness & Recreation on the right. At the bottom, a 'Core Features Implemented' section is shown.

Project Overview

A full-stack web application enabling university departments, student organizations, and individuals to list, share, and reserve campus resources. The system supports search, booking with calendar integration, role-based access, ratings and reviews, and administrative workflows.

7 Key Screens 3 User Roles 8 Core Features MVC Architecture

User dashboard

Campus Resource Hub
Application-Wireframes & Information Architecture

This wireframe shows the 'My Bookings' section of the Campus Resource Hub. It includes a sidebar with 'My Listings', 'Messages', and 'Profile' sections. The main area displays three booking cards: one pending, one approved, and one completed. At the bottom, there are summary statistics: 24 Total Bookings, 5 Active, 18 Completed, and 1 Cancelled.

Admin dashboard

This wireframe shows the Admin Dashboard. It features a navigation bar with links for Homepage, Resource Listing, Resource Detail, User Dashboard, Admin Dashboard (selected), Login, and Sign Up. The main content area includes an 'Overview' sidebar with links for Approval Queue, User Management, Resource Management, Booking Management, Moderation, and Settings. The central area has four summary boxes: Total Users (1,234), Active Resources (456), Pending Bookings (23), and Total Bookings (8,912). Below this is a 'Pending Approvals' section showing three booking requests, each with 'Approve' and 'Reject' buttons. To the right are 'Booking Trends' (a line chart) and 'Recent Activity' (a list of user icons).
